

Data Availability statement

For

Resource Assessment and Economic Prospects of Solar-Wind Energy Potentials in Bangladesh

- All tariff data for Bangladesh is derived from Tariff Order by **Bangladesh Energy Regulatory Commission (BERC)**, which are available at <http://berc.portal.gov.bd>.
- All subsidies related data have been collected from Annual Reports by Bangladesh Power Development Board (BPDB), which is openly available in their website at <https://bpdb.gov.bd/>.
- Renewable energy data and energy generation mix data for Bangladesh is collected from **National Database of Renewable Energy by Sustainable and Renewable Energy Development Authority (SREDA)**, which is openly available at <http://www.renewableenergy.gov.bd/>.
- Solar and wind data for different region of Bangladesh are collected from **RE Data Explorer (re-explorer.org)**. The modified dataset is available at <https://github.com/shparvez001/Prospects-of-Solar-Wind-Energy-Potentials-in-Bangladesh>.
- All other data are referenced in the reference section.
